Treasurer Board of Education.

We, the undersigned auditors of the town of Francestown, have this day examined the accounts of the treasurer of the Board of education, for the year ending March 1, 1892, and find said accounts correctly cast and duly vouched.

GEO. F. PETTEE,  
AUGUSTUS H. BIXBY, } *Auditors.*

## REPORT OF THE BOARD OF EDUCATION.

---

After a trial of six years with the "New School Law," by the same old Board, then organized, and under whose charge, either in an individual or combined capacity, the Schools in Francestown have been, nearly the whole time for the last thirty-five years, we, that same "old Board," are with you once again, for the purpose of placing before you, how and with what profit the money appropriated for public schools has been expended the past year. Nothing very *marked*, unless we mention the black *marks*, too many, by far, recorded in the registers, denoting that too much valuable time has been lost by delinquents, has taken place, to retard or give any uncommon impetus to our schools. We can truly say, that never since we have had charge of the schools, have they been run with more clock-like precision than the past year, and more especially in the Summer terms; a slight friction in the Fall and Winter terms, was experienced, incident to sickness and change of teachers.

### DISTRICT No. 1.

The spring and summer terms were taught by Mrs. Clara Bryant, who diligently served, and by faithfulness accomplished two good terms for her own district, and established for herself a good reputation in her own town as a teacher.

Miss Dora Sargent taught the winter term except the first week, which was taught by Miss Ruth Park. Miss Sargent though a teacher with but little experience, showed many good qualifications as a teacher, both in her discipline and her manner of instruction.

## DISTRICT No. 3.

*Primary Department.*

Miss Minnie Tobie taught the entire year in this department. A noted feature in this school was the introduction of singing. It was surprising how quick and well the little ones sung their songs, but this feature of instruction in no way conflicted with those branches that are usually taught in our schools, but it was a perfect whole, a well organized and disciplined year of school.

Miss Tobie, by her arduous labors showed not only to the Board of Education, but to all who entered her school, her high rank as a teacher, and her determination to have her school as perfect as possible.

## GRAMMAR SCHOOL.

The scholars in this school, under the instruction of their able teacher Geo. K. Wood, showed a remarkable readiness and great accuracy in their answers, greatly due to the continual service of Mr. Wood as a teacher. A new feature introduced this year was gymnastics.

## DISTRICT 4.

In this school the services of Miss Mary L. Bryant were secured for the Spring and Fall terms. Although this was her first experience, Miss Bryant gave evidence that she possesses a happy combination of the qualities that make a successful teacher. With excellent discipline, she also managed to secure the respect and affection of her pupils, and during both terms, gave so far as we know, the best of satisfaction to all concerned. Irregular attendance, perhaps unavoidable by some, was the greatest drawback to a more complete success.

For the winter term we were again fortunate in securing the services of Miss Grace E. Downes, who brought to her work much experience and an excellent reputation as a teacher. With somewhat different ways and means, an equally good result was obtained. Attendance better than in previous terms.

## DIVISION 5.

Cora L. Lord, whose services were appreciated the previous year, had charge of the school the entire year. The teacher was faithful and as a result a good year's work was accomplished.

## DIVISION 6.

Emma J. Dunklee, a teacher of repute, taught the Summer term to so general satisfaction, that she was engaged for the Fall session, but after teaching a few days, she was obliged to relinquish her school on account of sickness. After some delay, Jennie E. Shattuck, a teacher of experience, was hired to continue the school. The school was small, but some should have attended who were not there. No Winter term, pupils being accommodated at No. 5.

## DIVISION 7.

Martha M. Woodbury, a teacher of small, but approved experience taught the Summer term. Miss W. possesses the essentials of a good teacher. Her methods of instruction and maintaining order were such that satisfaction was unanimous. We were sorry that that desire for knowledge, prevented her from occupying the desk in the Fall.

Miss Ruth Parker was selected to care for the welfare of the children here during the Fall term. With rare scholarship and a large fund of general information, it only needs experience for her to take a front rank as a teacher.

No. 6 and No. 8 are the dwarfs in our family just now, and we are sorry to say that there is but small prospect of their growing to ordinary size in the near future. But like some individuals of that class, the luck is not so much in brains as in numbers or stature. Miss Anna E. Barrett again assumed charge for both terms. Owing to sickness the Spring term was closed at the end of four weeks. The Fall term of eleven weeks showed a very regular attendance and a good interest manifested throughout.

From the registers we gather the following facts:—

Number of weeks schooling, including Division 12, which was accommodated in New Boston, 200.

### WOODBURY FUND.

The interest of the "Woodbury Fund," has been expended in books and distributed throughout town, according to the merits of the scholars.

### MUSIC.

More time has been devoted to music than in former years, which sandwiched in between studies, has proved a pleasant and profitable pastime to the pupils, a help to the teachers and generally appreciated by all. The time is not far distant when the teaching of music will be a lawful requirement.

### PATRIOTISM.

Through the efforts of aunt Mary Wilson, who is ever full of "Dorcas deeds," a nice flag was secured for the Centre school, which floats its stars and stripes as a reminder of our independence, and our loyalty to order and government, and also, as surely demands obedience to the laws of the teacher, upon penalty of receiving *stripes* until *stars* are visible.

### SCHOOL HOUSES.

No. 3 Upper, has been thoroughly repaired, which adds much to the outside appearance, and makes a more healthy and attractive room with much larger breathing space. No. 5 has been shingled, which constitutes the greater part of repairs. During the past five years, the town has appropriated and your Board has expended over eleven hundred dollars for the repairs of school houses, and as a result our buildings are now, with the exception of No. 8, all in good condition, furnished with comfortable seats of modern make and well lighted. We rejoice that the old low-posted house, with floors at an angle of 45 degrees, seats of the hardest pine, windows with small end placed near the eaves, presenting a prison-like appearance, are among the things of the past in Francetown. The demand is for fresh air, more light and comfort.

And now, after a statement of the condition of school affairs, what are some of the needs of this town to enable her schools to secure a higher degree of usefulness? We need money suffi-

Attended by 141 different scholars, 72 boys, 69 girls.

Taught by 12 different teachers, all belonging to Frances-town.

Number of visits by School Board, 51.

Number of visits by citizens and others, 565.

cient to give all our children a fair quota of schooling, without having the Board handicapped for want of funds.

The constantly decreasing amount required to be raised by law, needs to be supplemented yearly by an extra allowance, that we may at least hold our own in length of terms and excellence of teachers, and with the very commendable public spirit shown in the past, we have but little fear of the future.

We need good and convenient houses, books, maps and other apparatus for illustrating. These, we are glad to say, we possess in a degree of which we are not ashamed; but now times demand new means, and we must expect to be continually finding new needs. We need the *best* of teachers, and *they* are none too good; teachers *born* and educated for the work, not those who for a single term pick up teaching as a kind of "knitting work; having nothing else to do. The world is full of those who *keep* school, but those who *teach* school are always scarce and in demand.

We need parents and citizens who appreciate the value of a good teacher, and who cheerfully visit the school for the purpose of encouraging their children and the teachers. The large number of visitors in our schools would indicate an increased interest in the cause of education. And lastly, we need a better School Board, more up with the times, more brains and more time at their command to invent new rules and methods of instruction.

Yes, summed up, good houses, and apparatus, good liberal appropriations, good parents and citizens, good teachers and a No. 1 Board of Education, acting in unison for the great object of life: the educating of a country loving, happy living, God fearing people.

Thanks to old and young for courtesies ever received.

## ROLL OF HONOR.
